*This document corresponds to doclicense v3.0.0, dated 2021-07-11.
1 Introduction

The doclicense package allows you to put your document under a license and include a link to read about the license or include an icon or image of the license. Currently, only Creative Commons is supported but this package is designed to handle all kinds of licenses. See Contributing.

2 Usage

The package can be used like in this mini working example:

```latex
\documentclass[english]{article}
\usepackage[
    type={CC},
    modifier={by-sa},
    version={4.0},
]{doclicense}
\begin{document}
\doclicenseThis%
\end{document}
```

This will explicitly set the license to CC BY-SA 4.0.

With the default settings and if the hyperxmp package is installed, it will be loaded and the options pdflicenseurl and pdfcopyright will be set by doclicense to the corresponding values (“https://creativecommons.org/licenses/by-sa/4.0/deed.en” and “This work is licensed under a Creative Commons ‘Attribution-ShareAlike 4.0 International’ license.”). This embeds license metadata into the
PDF which proper PDF readers can show. For example Evince shows it in the “Document License” tab under “Properties”. You may check this manual for how your PDF reader handles such metadata.

In case you are using other packages to manipulate the metadata which is incompatible to the use of hyperxmp, e.g. pdfx you can use the hyperxmp=false option to disable this automatism. If pdfx is loaded before doclicense or if hyperxmp is not installed this automatism is disabled. In these cases a warning is emitted to inform you about the reason. The warning will not show up if hyperxmp is set to false.

Also note that hyperxmp is not loaded when silence was loaded. This is because when both of those packages are loaded, compilation runs into an endless loop.

## 3 Dependency packages and load order

doclicense will ensure that the following packages are loaded by default. You don’t need to do anything extra as long as you are fine with the default options of those packages:

- ccicons To typeset icon versions of the Creative Commons licenses.
- graphicx To include images/buttons of the Creative Commons licenses.
- hyperxmp To write license information into the metadata section of the generated PDF.
- hyperref To typeset hyperlinks/URLs that are clickable.
- csquotes To offload localization of quotes depending on document language.

Load order is important for some of those packages. Here are the constraints that you will need to consider when you decide to load the packages yourself or other packages that you use load them:

- hyperxmp should be loaded before the setup of hyperref is called.
- csquotes should be loaded before biblatex because otherwise biblatex will define the \enquote in a way that is not compatible with doclicense.
- The position of loading doclicense is decoupled from the load order because interaction and loading of dependency packages is done via a hook at the end of the preamble.

## 4 Package options

type Sets the license type. Like in the previous example, the type can be “CC” to cover all the Creative Commons licenses. Please make sure that the type is all uppercase. See the Supported licenses section for a complete list. This is a required option since v2.0.0.

modifier Allows to select different subclasses of a license. In the example it is “by-sa”.

3
Please make sure that the type is all lowercase. See the Supported licenses section for a complete list. This is a required option since v2.0.0.

**version**

As there can be more than one version of a license, the version also needs to be set. This is a required option since v2.0.0.

**lang**

This package can output some texts like the long license name. Because of this, there needs to be a way to specify the language to use. If this parameter is omitted, then this package will default to \texttt{\textlanguage} which is normally set by packages like \texttt{babel} or \texttt{polyglossia}.

Supported languages:

- Brazilian
- Bulgarian
- Catalan
- Chinese: Note that you might need to pass \texttt{lang=\{chinese-utf8\}} or \texttt{chinese-gbk}.
- Croatian
- English
- French
- Galician
- German
- Italian
- Japanese
- Marathi: Note that Niranjan also translated the images which are considered unofficial by the package. Creative Commons has no plans to support additional currencies.
- Polish
- Portuguese
- Russian
- Spanish

**imageposition**

Image position for \texttt{\doclicenseThis}: right (default) or left.

**imagewidth**

Default image width for the license image. Defaults to 10em.

**imagedistance**

Distance between text and image in \texttt{\doclicenseThis}. Defaults to 2em.

**imagemodifier**

Select different variations of license images. For example, Creative Commons provides more than one image for one version. See the download page. You will note that there are by-nc.eu and by-nc which only differ in the currency. Based on the loaded language, the currency is set to a suitable default. You can change this with:
Also, there is 80x15 which uses letters instead of icons for the modifiers in the image.

\usepackage[
  type={CC},
  modifier={by-nc},
  version={4.0},
  imagenmodifier={-eu-80x15},
]{doclicense}

If this is not given, we default to 88x31. Note that imagenmodifier needs to assemble into a valid filename. Check what files the package ships with to understand what combinations can be used. For backwards compatibility, “-eu” is interpreted as “-eu-88x31”. This option allows you to specify a macro name which is going to be expanded in the minipage environment of \doclicenseThis. That allows you to change the behaviour how \doclicenseLongText is typeset. By default, this option is not enabled.

One possible use case is to set the option to “RaggedRight”. This will use the \RaggedRight macro provided by the ragged2e package\footnote{The \ragged2e package will be loaded when it is required.} with the intention of limiting the number of hyphenations while still allowing a hyphenation by typesetting \doclicenseLongText as ragged text.

The idea of using ragged text is that the \doclicenseLongText is usually one or two full line and one half full line so avoiding hyphenations might look better compared to justified text.

“RaggedRight” is also the setting used for this manual. \doclicenseThis did not produce a hyphenation in case of this manual but \TeX did fill up the first text line to it’s full width by adding additional space between words. This has been be avoided by setting the following option for this document:

\usepackage[
  hyphenation={RaggedRight},
]{doclicense}

Another option which can make sense is the \raggedright macro which more drastically limits the number of hyphenations. This can be set as shown below:

\usepackage[
  hyphenation={raggedright},
]{doclicense}
This option allows to disable the automatic loading of hyperxmp. It’s initialized to true. This might also be used to suppress the warning if hyperxmp is not available or pdfx was loaded before doclicense.

5 Macros

\doclicenseType Expands to the type as set in the package options. Example: “CC”
\doclicenseLongType Same as \doclicenseType except that it expands to the long license type. Example: “Creative Commons”
\doclicenseModifier Expands to the modifier as set in the package options. Example: “BY-SA”
\doclicenseVersion Expands to the version as set in the package options. Example: “4.0”
\doclicenseURL Expands to the official URL about the license. Note that it expands to the raw URL string without the use of \href or similar. If you want the link to be clickable then you can use \href or \url from the hyperref package or just read on because the following macros can also do this for you. Example: “https://creativecommons.org/licenses/by-sa/4.0/deed.en”
\doclicenseName Expands to the short name of the license. Example: “CC BY-SA 4.0”
\doclicenseLongName Expands to the long name of the license. Example: “Creative Commons Attribution-ShareAlike 4.0 International”
\doclicenseNameRef Same as \doclicenseName except that it links to the URL of the license. Example: “CC BY-SA 4.0”
\doclicenseLongNameRef Same as \doclicenseLongName except that it links to the URL of the license. Example: “Creative Commons Attribution-ShareAlike 4.0 International”
\doclicenseText Expands to a localized text which states that this document is licensed under the license. Example: “This work is licensed under a ‘Creative Commons Attribution-ShareAlike 4.0 International’ license.”
\doclicenseLongText Same as \doclicenseText except that it uses the long name of the license. Example: “This work is licensed under a Creative Commons ‘Attribution-ShareAlike 4.0 International’ license.”
\doclicensePlainFullText Verbatim prints the full license text. An example can be found in the Plaintext license text section.
\doclicensePlainFullTextFileName Expands to the file name which the \doclicensePlainFullText macro uses to \verbatiminput the license text file. Example: “doclicense-CC-by-sa-4.0-plaintext”
\doclicenseFullText Pretty prints the full license text. An example can be found in the Pretty license text section.
\doclicenseFullTextFileName Expands to the file name which the \doclicenseFullText macro uses to \input the license text file. Example: “doclicense-CC-by-sa-4.0-latex”
\doclicenseTypeIcon Expands to an icon of the license type. Example: “©”. This macro is based on the ccicons package.
\doclicenseIcon Expands to an icon of the license. Example: “© © ©”. This macro is based on the ccicons package.
\doclicenseImage This is kind of similar to \doclicenseIcon but it will typeset an bigger pictogram of the license. Example: ”

6
Note that you can change the image size with the \(\text{[\text{imagewidth}]}\) parameter like this: “\[imgwidth\]”

\doclicenseImage[imagewidth=2em]

The images are bundled with the \doclicense package as vector graphics. This macro expands to the file name of the image which the \doclicenseImage typesets. You can use this file name with \includegraphics if you need more flexibility over how the image is typeset.

The current file name is: “doclicense-CC-by-sa-88x31”

You do not have to worry about the file path. Normally your \LaTeX{} environment will find the image for you.

The file extension is omitted which is good practice together with \includegraphics as it will pick the proper one itself.

And last but not least there is the \doclicenseThis macro which will typeset the \doclicenseText next to the \doclicenseImage in a “minipage” environment.

This will look like the following:

This work is licensed under a Creative Commons “Attribution-ShareAlike 4.0 International” license.

And here is how it looks with the imagemodifier option set to “-80x15”:

This work is licensed under a Creative Commons “Attribution-ShareAlike 4.0 International” license.

6 Supported licenses

Currently only Creative Commons is supported. The license type, modifier and version should be based on SPDX license identifiers. Direct support for SPDX license identifiers should be considered when supporting new licenses.

6.1 CC (Creative Commons)

7 Retired licenses

Licenses get updated and sometimes fully replaced. This section clarifies how doclicense handles this.
If there is consensus that the old license has no valid use case anymore and it is possible and allowed for everyone compiling a document to update the license, then the old license will be removed from doclicense in the next major version.
Otherwise, doclicense will keep supporting it to ensure that documents using those licenses can still be compiled in the future.
List of retired licenses:

CC-PDDC  Copyright-Only Dedication

8 What license to choose for the document?

The list of available licenses is long (see SPDX License List). Only a (small) subset of them are a good choice for documentation. The Creative Commons family seem to be a common choice as contributions to this package have shown. This package was translated to 15+ languages but no other license families have been added yet. With that, a link to Creative Commons: Choose a License is probably justified if you have not done that already.

9 REUSE Specification

That clarifies the question under which license you want to put the document under, but in practice it might not be as easy as that. Under what license are the artifacts (images/figures/tables/source code listings) you are including? It would probably be useful to track such metadata along with the files. For this, the https://reuse.software/ can be used.
The REUSE Specification is independed of \LaTeX{} and more “low level” than this package. doclicense might integrate with the REUSE Specification at a later point. Refer to https://github.com/ypid/latex-packages/issues/72 for discussion how such an integration could look like.

10 Contributing

This package is being developed on GitHub: https://github.com/ypid/latex-packages/tree/master/doclicense. When you want to modify the .sty file,
make sure that you make your changes in the .dtx file instead, as the .sty file is automatically generated.

In case you want to add a translation for your language then just copy the file \texttt{doclicense-english.ldf} and replace the “english” in the filename with your language code (same as the language code used by \texttt{babel}) and translate the file. If there are multiple language codes which should map to the same translation then have a look at the file \texttt{doclicense-american.ldf}.

When you are done and have tested your translation (modify and run the \texttt{run_tests} script) then please send me the translated file(s) either via Email or preferably by opening a pull request on GitHub so that I can include them in the next release.

Note that the following development conventions are used for the package:

- REUSE Specification 3.0
- Conventional Commits 1.0.0
- Semantic Versioning 2.0.0
- CI tests using GitHub Actions

11 Plaintext license text

The following is an example output of the \texttt{\doclicensePlainFullText} macro.

\begin{verbatim}
\begin{verbatim}
\end{verbatim}
\end{verbatim}

Creative Commons Corporation ("Creative Commons") is not a law firm and does not provide legal services or legal advice. Distribution of Creative Commons public licenses does not create a lawyer-client or other relationship. Creative Commons makes its licenses and related information available on an "as-is" basis. Creative Commons gives no warranties regarding its licenses, any material licensed under their terms and conditions, or any related information. Creative Commons disclaims all liability for damages resulting from their use to the fullest extent possible.

Using Creative Commons Public Licenses

Creative Commons public licenses provide a standard set of terms and conditions that creators and other rights holders may use to share original works of authorship and other material subject to copyright and certain other rights specified in the public license below. The following considerations are for informational purposes only, are not exhaustive, and do not form part of our licenses.
Considerations for licensors: Our public licenses are intended for use by those authorized to give the public permission to use material in ways otherwise restricted by copyright and certain other rights. Our licenses are irrevocable. Licensors should read and understand the terms and conditions of the license they choose before applying it. Licensors should also secure all rights necessary before applying our licenses so that the public can reuse the material as expected. Licensors should clearly mark any material not subject to the license. This includes other CC-licensed material, or material used under an exception or limitation to copyright. More considerations for licensors: wiki.creativecommons.org/Considerations_for_licensors

Considerations for the public: By using one of our public licenses, a licensor grants the public permission to use the licensed material under specified terms and conditions. If the licensor's permission is not necessary for any reason—for example, because of any applicable exception or limitation to copyright—then that use is not regulated by the license. Our licenses grant only permissions under copyright and certain other rights that a licensor has authority to grant. Use of the licensed material may still be restricted for other reasons, including because others have copyright or other rights in the material. A licensor may make special requests, such as asking that all changes be marked or described. Although not required by our licenses, you are encouraged to respect those requests where reasonable. More considerations for the public: wiki.creativecommons.org/Considerations_for_licensees

=======================================================================

Creative Commons Attribution-ShareAlike 4.0 International Public License

By exercising the Licensed Rights (defined below), You accept and agree to be bound by the terms and conditions of this Creative Commons Attribution-ShareAlike 4.0 International Public License ("Public License"). To the extent this Public License may be interpreted as a contract, You are granted the Licensed Rights in consideration of Your acceptance of these terms and conditions, and the Licensor grants You such rights in consideration of benefits the Licensor receives from making the Licensed Material available under these terms and conditions.
Section 1 -- Definitions.

a. Adapted Material means material subject to Copyright and Similar Rights that is derived from or based upon the Licensed Material and in which the Licensed Material is translated, altered, arranged, transformed, or otherwise modified in a manner requiring permission under the Copyright and Similar Rights held by the Licensor. For purposes of this Public License, where the Licensed Material is a musical work, performance, or sound recording, Adapted Material is always produced where the Licensed Material is synched in timed relation with a moving image.

b. Adapter's License means the license You apply to Your Copyright and Similar Rights in Your contributions to Adapted Material in accordance with the terms and conditions of this Public License.

c. BY-SA Compatible License means a license listed atcreativecommons.org/compatiblelicenses, approved by Creative Commons as essentially the equivalent of this Public License.

d. Copyright and Similar Rights means copyright and/or similar rights closely related to copyright including, without limitation, performance, broadcast, sound recording, and Sui Generis Database Rights, without regard to how the rights are labeled or categorized. For purposes of this Public License, the rights specified in Section 2(b)(1)-(2) are not Copyright and Similar Rights.

e. Effective Technological Measures means those measures that, in the absence of proper authority, may not be circumvented under laws fulfilling obligations under Article 11 of the WIPO Copyright Treaty adopted on December 20, 1996, and/or similar international agreements.

f. Exceptions and Limitations means fair use, fair dealing, and/or any other exception or limitation to Copyright and Similar Rights that applies to Your use of the Licensed Material.

g. License Elements means the license attributes listed in the name of a Creative Commons Public License. The License Elements of this Public License are Attribution and ShareAlike.

h. Licensed Material means the artistic or literary work, database, or other material to which the Licensor applied this Public License.
License.

i. Licensed Rights means the rights granted to You subject to the terms and conditions of this Public License, which are limited to all Copyright and Similar Rights that apply to Your use of the Licensed Material and that the Licensor has authority to license.

j. Licensor means the individual(s) or entity(ies) granting rights under this Public License.

k. Share means to provide material to the public by any means or process that requires permission under the Licensed Rights, such as reproduction, public display, public performance, distribution, dissemination, communication, or importation, and to make material available to the public including in ways that members of the public may access the material from a place and at a time individually chosen by them.

l. Sui Generis Database Rights means rights other than copyright resulting from Directive 96/9/EC of the European Parliament and of the Council of 11 March 1996 on the legal protection of databases, as amended and/or succeeded, as well as other essentially equivalent rights anywhere in the world.

m. You means the individual or entity exercising the Licensed Rights under this Public License. Your has a corresponding meaning.

Section 2 -- Scope.

a. License grant.

1. Subject to the terms and conditions of this Public License, the Licensor hereby grants You a worldwide, royalty-free, non-sublicensable, non-exclusive, irrevocable license to exercise the Licensed Rights in the Licensed Material to:

   a. reproduce and Share the Licensed Material, in whole or in part; and

   b. produce, reproduce, and Share Adapted Material.

2. Exceptions and Limitations. For the avoidance of doubt, where Exceptions and Limitations apply to Your use, this Public License does not apply, and You do not need to comply with its terms and conditions.

12
3. Term. The term of this Public License is specified in Section 6(a).

4. Media and formats; technical modifications allowed. The Licensor authorizes You to exercise the Licensed Rights in all media and formats whether now known or hereafter created, and to make technical modifications necessary to do so. The Licensor waives and/or agrees not to assert any right or authority to forbid You from making technical modifications necessary to exercise the Licensed Rights, including technical modifications necessary to circumvent Effective Technological Measures. For purposes of this Public License, simply making modifications authorized by this Section 2(a)(4) never produces Adapted Material.

5. Downstream recipients.

a. Offer from the Licensor -- Licensed Material. Every recipient of the Licensed Material automatically receives an offer from the Licensor to exercise the Licensed Rights under the terms and conditions of this Public License.

b. Additional offer from the Licensor -- Adapted Material. Every recipient of Adapted Material from You automatically receives an offer from the Licensor to exercise the Licensed Rights in the Adapted Material under the conditions of the Adapter's License You apply.

c. No downstream restrictions. You may not offer or impose any additional or different terms or conditions on, or apply any Effective Technological Measures to, the Licensed Material if doing so restricts exercise of the Licensed Rights by any recipient of the Licensed Material.

6. No endorsement. Nothing in this Public License constitutes or may be construed as permission to assert or imply that You are, or that Your use of the Licensed Material is, connected with, or sponsored, endorsed, or granted official status by, the Licensor or others designated to receive attribution as provided in Section 3(a)(1)(A)(i).

b. Other rights.
1. Moral rights, such as the right of integrity, are not licensed under this Public License, nor are publicity, privacy, and/or other similar personality rights; however, to the extent possible, the Licensor waives and/or agrees not to assert any such rights held by the Licensor to the limited extent necessary to allow You to exercise the Licensed Rights, but not otherwise.

2. Patent and trademark rights are not licensed under this Public License.

3. To the extent possible, the Licensor waives any right to collect royalties from You for the exercise of the Licensed Rights, whether directly or through a collecting society under any voluntary or waivable statutory or compulsory licensing scheme. In all other cases the Licensor expressly reserves any right to collect such royalties.

Section 3 -- License Conditions.

Your exercise of the Licensed Rights is expressly made subject to the following conditions.

a. Attribution.

1. If You Share the Licensed Material (including in modified form), You must:

   a. retain the following if it is supplied by the Licensor with the Licensed Material:

      i. identification of the creator(s) of the Licensed Material and any others designated to receive attribution, in any reasonable manner requested by the Licensor (including by pseudonym if designated);

      ii. a copyright notice;

      iii. a notice that refers to this Public License;

      iv. a notice that refers to the disclaimer of warranties;

      v. a URI or hyperlink to the Licensed Material to the
extent reasonably practicable;

b. indicate if You modified the Licensed Material and retain an indication of any previous modifications; and

c. indicate the Licensed Material is licensed under this Public License, and include the text of, or the URI or hyperlink to, this Public License.

2. You may satisfy the conditions in Section 3(a)(1) in any reasonable manner based on the medium, means, and context in which You Share the Licensed Material. For example, it may be reasonable to satisfy the conditions by providing a URI or hyperlink to a resource that includes the required information.

3. If requested by the Licensor, You must remove any of the information required by Section 3(a)(1)(A) to the extent reasonably practicable.

b. ShareAlike.

In addition to the conditions in Section 3(a), if You Share Adapted Material You produce, the following conditions also apply.

1. The Adapter's License You apply must be a Creative Commons license with the same License Elements, this version or later, or a BY-SA Compatible License.

2. You must include the text of, or the URI or hyperlink to, the Adapter's License You apply. You may satisfy this condition in any reasonable manner based on the medium, means, and context in which You Share Adapted Material.

3. You may not offer or impose any additional or different terms or conditions on, or apply any Effective Technological Measures to, Adapted Material that restrict exercise of the rights granted under the Adapter's License You apply.

Section 4 -- Sui Generis Database Rights.

Where the Licensed Rights include Sui Generis Database Rights that apply to Your use of the Licensed Material:

a. for the avoidance of doubt, Section 2(a)(1) grants You the right
to extract, reuse, reproduce, and Share all or a substantial portion of the contents of the database;

b. if You include all or a substantial portion of the database contents in a database in which You have Sui Generis Database Rights, then the database in which You have Sui Generis Database Rights (but not its individual contents) is Adapted Material, including for purposes of Section 3(b); and

c. You must comply with the conditions in Section 3(a) if You Share all or a substantial portion of the contents of the database.

For the avoidance of doubt, this Section 4 supplements and does not replace Your obligations under this Public License where the Licensed Rights include other Copyright and Similar Rights.

Section 5 -- Disclaimer of Warranties and Limitation of Liability.

a. UNLESS OTHERWISE SEPARATELY UNDERTAKEN BY THE LICENSOR, TO THE EXTENT POSSIBLE, THE LICENSOR OFFERS THE LICENSED MATERIAL AS-IS AND AS-AVAILABLE, AND MAKES NO REPRESENTATIONS OR WARRANTIES OF ANY KIND CONCERNING THE LICENSED MATERIAL, WHETHER EXPRESS, IMPLIED, STATUTORY, OR OTHER. THIS INCLUDES, WITHOUT LIMITATION, WARRANTIES OF TITLE, MERCHANTABILITY, FITNESS FOR A PARTICULAR PURPOSE, NON-INFRINGEMENT, ABSENCE OF LATENT OR OTHER DEFECTS, ACCURACY, OR THE PRESENCE OR ABSENCE OF ERRORS, WHETHER OR NOT KNOWN OR DISCOVERABLE. WHERE DISCLAIMERS OF WARRANTIES ARE NOT ALLOWED IN FULL OR IN PART, THIS DISCLAIMER MAY NOT APPLY TO YOU.

b. TO THE EXTENT POSSIBLE, IN NO EVENT WILL THE LICENSOR BE LIABLE TO YOU ON ANY LEGAL THEORY (INCLUDING, WITHOUT LIMITATION, NEGLIGENCE) OR OTHERWISE FOR ANY DIRECT, SPECIAL, INDIRECT, INCIDENTAL, CONSEQUENTIAL, PUNITIVE, EXEMPLARY, OR OTHER LOSSES, COSTS, EXPENSES, OR DAMAGES ARISING OUT OF THIS PUBLIC LICENSE OR USE OF THE LICENSED MATERIAL, EVEN IF THE LICENSOR HAS BEEN ADVISED OF THE POSSIBILITY OF SUCH LOSSES, COSTS, EXPENSES, OR DAMAGES. WHERE A LIMITATION OF LIABILITY IS NOT ALLOWED IN FULL OR IN PART, THIS LIMITATION MAY NOT APPLY TO YOU.

c. The disclaimer of warranties and limitation of liability provided above shall be interpreted in a manner that, to the extent possible, most closely approximates an absolute disclaimer and waiver of all liability.
Section 6 -- Term and Termination.

a. This Public License applies for the term of the Copyright and Similar Rights licensed here. However, if You fail to comply with this Public License, then Your rights under this Public License terminate automatically.

b. Where Your right to use the Licensed Material has terminated under Section 6(a), it reinstates:

1. automatically as of the date the violation is cured, provided it is cured within 30 days of Your discovery of the violation; or

2. upon express reinstatement by the Licensor.

For the avoidance of doubt, this Section 6(b) does not affect any right the Licensor may have to seek remedies for Your violations of this Public License.

c. For the avoidance of doubt, the Licensor may also offer the Licensed Material under separate terms or conditions or stop distributing the Licensed Material at any time; however, doing so will not terminate this Public License.

d. Sections 1, 5, 6, 7, and 8 survive termination of this Public License.

Section 7 -- Other Terms and Conditions.

a. The Licensor shall not be bound by any additional or different terms or conditions communicated by You unless expressly agreed.

b. Any arrangements, understandings, or agreements regarding the Licensed Material not stated herein are separate from and independent of the terms and conditions of this Public License.

Section 8 -- Interpretation.

a. For the avoidance of doubt, this Public License does not, and shall not be interpreted to, reduce, limit, restrict, or impose conditions on any use of the Licensed Material that could lawfully be made without permission under this Public License.
b. To the extent possible, if any provision of this Public License is deemed unenforceable, it shall be automatically reformed to the minimum extent necessary to make it enforceable. If the provision cannot be reformed, it shall be severed from this Public License without affecting the enforceability of the remaining terms and conditions.

c. No term or condition of this Public License will be waived and no failure to comply consented to unless expressly agreed to by the Licensor.

d. Nothing in this Public License constitutes or may be interpreted as a limitation upon, or waiver of, any privileges and immunities that apply to the Licensor or You, including from the legal processes of any jurisdiction or authority.

================================================================================

Creative Commons is not a party to its public licenses. Notwithstanding, Creative Commons may elect to apply one of its public licenses to material it publishes and in those instances will be considered the "Licensor." The text of the Creative Commons public licenses is dedicated to the public domain under the CCO Public Domain Dedication. Except for the limited purpose of indicating that material is shared under a Creative Commons public license or as otherwise permitted by the Creative Commons policies published at creativecommons.org/policies, Creative Commons does not authorize the use of the trademark "Creative Commons" or any other trademark or logo of Creative Commons without its prior written consent including, without limitation, in connection with any unauthorized modifications to any of its public licenses or any other arrangements, understandings, or agreements concerning use of licensed material. For the avoidance of doubt, this paragraph does not form part of the public licenses.

Creative Commons may be contacted at creativecommons.org.

12 Pretty license text

The following is an example output of the \doclicenseFullText macro.
13 Creative Commons Legal Code

13.1 Attribution-ShareAlike 4.0 International

Official translations of this license are available in other languages.
Creative Commons Corporation ("Creative Commons") is not a law firm and
does not provide legal services or legal advice. Distribution of Creative Commons
public licenses does not create a lawyer-client or other relationship. Creative
Commons makes its licenses and related information available on an “as-is” basis.
Creative Commons gives no warranties regarding its licenses, any material licensed
under their terms and conditions, or any related information. Creative Commons
denies all liability for damages resulting from their use to the fullest extent
possible.

Using Creative Commons Public Licenses
Creative Commons public licenses provide a standard set of terms and conditions
that creators and other rights holders may use to share original works of authorship
and other material subject to copyright and certain other rights specified in the
public license below. The following considerations are for informational purposes
only, are not exhaustive, and do not form part of our licenses.

Considerations for licensors: Our public licenses are intended for use by those
authorized to give the public permission to use material in ways otherwise re-
stricted by copyright and certain other rights. Our licenses are irrevocable. Li-
censors should read and understand the terms and conditions of the license they
choose before applying it. Licensors should also secure all rights necessary before
applying our licenses so that the public can reuse the material as expected. Li-
censors should clearly mark any material not subject to the license. This includes
other CC-licensed material, or material used under an exception or limitation to
copyright. More considerations for licensors.

Considerations for the public: By using one of our public licenses, a licensor
grants the public permission to use the licensed material under specified terms and
conditions. If the licensor’s permission is not necessary for any reason—for example,
because of any applicable exception or limitation to copyright—then that use is not
regulated by the license. Our licenses grant only permissions under copyright and
certain other rights that a licensor has authority to grant. Use of the licensed
material may still be restricted for other reasons, including because others have
copyright or other rights in the material. A licensor may make special requests,
such as asking that all changes be marked or described. Although not required by
our licenses, you are encouraged to respect those requests where reasonable. More
considerations for the public.

13.1.1 Creative Commons Attribution-ShareAlike 4.0 International
Public License

By exercising the Licensed Rights (defined below), You accept and agree to
be bound by the terms and conditions of this Creative Commons Attribution-
ShareAlike 4.0 International Public License ("Public License"). To the extent this
Public License may be interpreted as a contract, You are granted the Licensed Rights in consideration of Your acceptance of these terms and conditions, and the Licensor grants You such rights in consideration of benefits the Licensor receives from making the Licensed Material available under these terms and conditions.

Section 1 – Definitions.

(a) **Adapted Material** means material subject to Copyright and Similar Rights that is derived from or based upon the Licensed Material and in which the Licensed Material is translated, altered, arranged, transformed, or otherwise modified in a manner requiring permission under the Copyright and Similar Rights held by the Licensor. For purposes of this Public License, where the Licensed Material is a musical work, performance, or sound recording, Adapted Material is always produced where the Licensed Material is synched in timed relation with a moving image.

(b) **Adapter’s License** means the license You apply to Your Copyright and Similar Rights in Your contributions to Adapted Material in accordance with the terms and conditions of this Public License.

(c) **BY-SA Compatible License** means a license listed at creativecommons.org/compatiblelicenses, approved by Creative Commons as essentially the equivalent of this Public License.

(d) **Copyright and Similar Rights** means copyright and/or similar rights closely related to copyright including, without limitation, performance, broadcast, sound recording, and Sui Generis Database Rights, without regard to how the rights are labeled or categorized. For purposes of this Public License, the rights specified in Section 2(b)(1)-(2) are not Copyright and Similar Rights.

(e) **Effective Technological Measures** means those measures that, in the absence of proper authority, may not be circumvented under laws fulfilling obligations under Article 11 of the WIPO Copyright Treaty adopted on December 20, 1996, and/or similar international agreements.

(f) **Exceptions and Limitations** means fair use, fair dealing, and/or any other exception or limitation to Copyright and Similar Rights that applies to Your use of the Licensed Material.

(g) **License Elements** means the license attributes listed in the name of a Creative Commons Public License. The License Elements of this Public License are Attribution and ShareAlike.

(h) **Licensed Material** means the artistic or literary work, database, or other material to which the Licensor applied this Public License.

(i) **Licensed Rights** means the rights granted to You subject to the terms and conditions of this Public License, which are limited to all Copyright and Similar Rights that apply to Your use of the Licensed Material and that the Licensor has authority to license.
(j) **Licensor** means the individual(s) or entity(ies) granting rights under this Public License.

(k) **Share** means to provide material to the public by any means or process that requires permission under the Licensed Rights, such as reproduction, public display, public performance, distribution, dissemination, communication, or importation, and to make material available to the public including in ways that members of the public may access the material from a place and at a time individually chosen by them.

(l) **Sui Generis Database Rights** means rights other than copyright resulting from Directive 96/9/EC of the European Parliament and of the Council of 11 March 1996 on the legal protection of databases, as amended and/or succeeded, as well as other essentially equivalent rights anywhere in the world.

(m) **You** means the individual or entity exercising the Licensed Rights under this Public License. **Your** has a corresponding meaning.

**Section 2 – Scope.**

(a) **License grant.**

(1) Subject to the terms and conditions of this Public License, the Licensor hereby grants You a worldwide, royalty-free, non-sublicensable, non-exclusive, irrevocable license to exercise the Licensed Rights in the Licensed Material to:

(A) reproduce and Share the Licensed Material, in whole or in part; and

(B) produce, reproduce, and Share Adapted Material.

(2) Exceptions and Limitations. For the avoidance of doubt, where Exceptions and Limitations apply to Your use, this Public License does not apply, and You do not need to comply with its terms and conditions.

(3) Term. The term of this Public License is specified in Section 6(a).

(4) Media and formats; technical modifications allowed. The Licensor authorizes You to exercise the Licensed Rights in all media and formats whether now known or hereafter created, and to make technical modifications necessary to do so. The Licensor waives and/or agrees not to assert any right or authority to forbid You from making technical modifications necessary to exercise the Licensed Rights, including technical modifications necessary to circumvent Effective Technological Measures. For purposes of this Public License, simply making modifications authorized by this Section 2(a)(4) never produces Adapted Material.

(5) Downstream recipients.
(A) Offer from the Licensor – Licensed Material. Every recipient of the Licensed Material automatically receives an offer from the Licensor to exercise the Licensed Rights under the terms and conditions of this Public License.

(B) Additional offer from the Licensor – Adapted Material. Every recipient of Adapted Material from You automatically receives an offer from the Licensor to exercise the Licensed Rights in the Adapted Material under the conditions of the Adapter’s License You apply.

(C) No downstream restrictions. You may not offer or impose any additional or different terms or conditions on, or apply any Effective Technological Measures to, the Licensed Material if doing so restricts exercise of the Licensed Rights by any recipient of the Licensed Material.

(6) No endorsement. Nothing in this Public License constitutes or may be construed as permission to assert or imply that You are, or that Your use of the Licensed Material is, connected with, or sponsored, endorsed, or granted official status by, the Licensor or others designated to receive attribution as provided in Section 3(a)(1)(A)(i).

Other rights.

(b)  (1) Moral rights, such as the right of integrity, are not licensed under this Public License, nor are publicity, privacy, and/or other similar personality rights; however, to the extent possible, the Licensor waives and/or agrees not to assert any such rights held by the Licensor to the limited extent necessary to allow You to exercise the Licensed Rights, but not otherwise.

(2) Patent and trademark rights are not licensed under this Public License.

(3) To the extent possible, the Licensor waives any right to collect royalties from You for the exercise of the Licensed Rights, whether directly or through a collecting society under any voluntary or waivable statutory or compulsory licensing scheme. In all other cases the Licensor expressly reserves any right to collect such royalties.

Section 3 – License Conditions.
Your exercise of the Licensed Rights is expressly made subject to the following conditions.

(a) Attribution.

(1) If You Share the Licensed Material (including in modified form), You must:

(A) retain the following if it is supplied by the Licensor with the Licensed Material:

(i) identification of the creator(s) of the Licensed Material and any others designated to receive attribution, in any reasonable
manner requested by the Licensor (including by pseudonym if designated);  
(ii) a copyright notice;  
(iii) a notice that refers to this Public License;  
(iv) a notice that refers to the disclaimer of warranties;  
(v) a URI or hyperlink to the Licensed Material to the extent reasonably practicable;  
(B) indicate if You modified the Licensed Material and retain an indication of any previous modifications; and  
(C) indicate the Licensed Material is licensed under this Public License, and include the text of, or the URI or hyperlink to, this Public License.

(2) You may satisfy the conditions in Section 3(a)(1) in any reasonable manner based on the medium, means, and context in which You Share the Licensed Material. For example, it may be reasonable to satisfy the conditions by providing a URI or hyperlink to a resource that includes the required information.

(3) If requested by the Licensor, You must remove any of the information required by Section 3(a)(1)(A) to the extent reasonably practicable.

(b) ShareAlike.

In addition to the conditions in Section 3(a), if You Share Adapted Material You produce, the following conditions also apply.

(1) The Adapter’s License You apply must be a Creative Commons license with the same License Elements, this version or later, or a BY-SA Compatible License.

(2) You must include the text of, or the URI or hyperlink to, the Adapter’s License You apply. You may satisfy this condition in any reasonable manner based on the medium, means, and context in which You Share Adapted Material.

(3) You may not offer or impose any additional or different terms or conditions on, or apply any Effective Technological Measures to, Adapted Material that restrict exercise of the rights granted under the Adapter’s License You apply.

Section 4 – Sui Generis Database Rights.  
Where the Licensed Rights include Sui Generis Database Rights that apply to Your use of the Licensed Material:

(a) for the avoidance of doubt, Section 2(a)(1) grants You the right to extract, reuse, reproduce, and Share all or a substantial portion of the contents of the database;
(b) if You include all or a substantial portion of the database contents in a
database in which You have Sui Generis Database Rights, then the database
in which You have Sui Generis Database Rights (but not its individual con-
tents) is Adapted Material, including for purposes of Section 3(b); and

(c) You must comply with the conditions in Section 3(a) if You Share all or a
substantial portion of the contents of the database.

For the avoidance of doubt, this Section 4 supplements and does not replace Your
obligations under this Public License where the Licensed Rights include other
Copyright and Similar Rights.

Section 5 – Disclaimer of W arranties and Limitation of Liability.

(a) Unless otherwise separately undertaken by the Licensor, to the
extent possible, the Licensor offers the Licensed Material as-is
and as-available, and makes no representations or warranties of
any kind concerning the Licensed Material, whether express, im-
plied, statutory, or other. This includes, without limitation, war-
ranties of title, merchantability, fitness for a particular purpose,
non-infringement, absence of latent or other defects, accuracy, or
the presence or absence of errors, whether or not known or dis-
coverable. Where disclaimers of warranties are not allowed in full
or in part, this disclaimer may not apply to You.

(b) To the extent possible, in no event will the Licensor be liable to
You on any legal theory (including, without limitation, negligence)
or otherwise for any direct, special, indirect, incidental, conse-
quential, punitive, exemplary, or other losses, costs, expenses, or
damages arising out of this Public License or use of the Licensed
Material, even if the Licensor has been advised of the possibility
of such losses, costs, expenses, or damages. Where a limitation of
liability is not allowed in full or in part, this limitation may not
apply to You.

(a) The disclaimer of warranties and limitation of liability provided above shall
be interpreted in a manner that, to the extent possible, most closely approx-
imates an absolute disclaimer and waiver of all liability.

Section 6 – T erm and T ermination.

(a) This Public License applies for the term of the Copyright and Similar Rights
licensed here. However, if You fail to comply with this Public License, then
Your rights under this Public License terminate automatically.

(b) Where Your right to use the Licensed Material has terminated under Section
6(a), it reinstates:

(1) automatically as of the date the violation is cured, provided it is cured
within 30 days of Your discovery of the violation; or
(2) upon express reinstatement by the Licensor.

For the avoidance of doubt, this Section 6(b) does not affect any right the Licensor may have to seek remedies for Your violations of this Public License.

(c) For the avoidance of doubt, the Licensor may also offer the Licensed Material under separate terms or conditions or stop distributing the Licensed Material at any time; however, doing so will not terminate this Public License.

(d) Sections 1, 5, 6, 7, and 8 survive termination of this Public License.

Section 7 – Other Terms and Conditions.

(a) The Licensor shall not be bound by any additional or different terms or conditions communicated by You unless expressly agreed.

(b) Any arrangements, understandings, or agreements regarding the Licensed Material not stated herein are separate from and independent of the terms and conditions of this Public License.

Section 8 – Interpretation.

(a) For the avoidance of doubt, this Public License does not, and shall not be interpreted to, reduce, limit, restrict, or impose conditions on any use of the Licensed Material that could lawfully be made without permission under this Public License.

(b) To the extent possible, if any provision of this Public License is deemed unenforceable, it shall be automatically reformed to the minimum extent necessary to make it enforceable. If the provision cannot be reformed, it shall be severed from this Public License without affecting the enforceability of the remaining terms and conditions.

(c) No term or condition of this Public License will be waived and no failure to comply consented to unless expressly agreed to by the Licensor.

(d) Nothing in this Public License constitutes or may be interpreted as a limitation upon, or waiver of, any privileges and immunities that apply to the Licensor or You, including from the legal processes of any jurisdiction or authority.

Creative Commons is not a party to its public licenses. Notwithstanding, Creative Commons may elect to apply one of its public licenses to material it publishes and in those instances will be considered the “Licensor.” The text of the Creative Commons public licenses is dedicated to the public domain under the CC0 Public Domain Dedication. Except for the limited purpose of indicating that material is shared under a Creative Commons public license or as otherwise permitted by the Creative Commons policies published at creativecommons.org/policies, Creative Commons does not authorize the use of the trademark “Creative Commons” or any other trademark or logo of Creative Commons without its prior written
consent including, without limitation, in connection with any unauthorized modifications to any of its public licenses or any other arrangements, understandings, or agreements concerning use of licensed material. For the avoidance of doubt, this paragraph does not form part of the public licenses.

Creative Commons may be contacted at creativecommons.org. Additional languages available. Please read the FAQ for more information about official translations.
14  Implementation

14.1  Declaring the options

% Parameters (((
1 \RequirePackage{kvoptions}
2 \DeclareStringOption{type}
3 \DeclareStringOption{modifier}
4 \DeclareStringOption{version}
5 \DeclareStringOption{lang}
6 \DeclareStringOption[-88x31]{imagemodifier}% chktex 29
7 \DeclareStringOption[right]{imageposition}
8 \DeclareStringOption[10em]{imagewidth}
9 \DeclareStringOption[2em]{imagedistance}
10 \DeclareStringOption{hyphenation}
11 \DeclareBoolOption[true]{hyperxmp}
12 ))))

To test if all parameters are valid the macro \ProcessLocalKeyvalOptions* is expanded to ensure this before leaving the preamble. This is the only purpose for the \ProcessLocalKeyvalOptions* macro in this case.

15 \ProcessLocalKeyvalOptions*

Change History

0.07
General: Initial version.

0.08
General: Added support for CC-zero and CC-pd and small improvements.

0.09
General: Added list of supported licenses to docu and added option imagemodifier. Also renamed macro \doclicenseLicense to \doclicenseThis.

0.10
General: Added support for hyperxmp.
<table>
<thead>
<tr>
<th>Version</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>1.9.0</td>
<td>General: Added Catalan, Galician, Chinese and Portuguese translation. Detect and give hint when enquote macro is already defined. Fix LaTeX Error: Too deeply nested.</td>
</tr>
<tr>
<td>2.0.0</td>
<td>General: Add 80x15 version of CC images which can be used with the imagemodifier option. Fix slight color offset for all CC images caused by bad image conversion. Thanks to rodrigoalcarazelaosa for reporting. Fix \doclicenseThis support for twocolumn layouts. Thanks to Nao Pross. Soft require package options &quot;type&quot;, &quot;modifier&quot; and &quot;version&quot; now. Defaults are deprecated. This will become a package error in an upcoming major version of the package, with the earliest release in 2021-07 to give people time to migrate. Remove Creative Commons PD which has been replaced by CC-zero as of 2010-10-11. Update example license used for examples in manual to CC-BY-SA-4.0.</td>
</tr>
<tr>
<td>2.1.0</td>
<td>General: Fix regression: Proper language default image variants (Euro variants for example) was broken and the US variant was always used. This bug was introduced in v2.0.0. Documentation fixes. Added Marathi translation.</td>
</tr>
<tr>
<td>2.2.0</td>
<td>General: Add Japanese and Bulgarian translation. Add hint how to use Chinese to docs. Load hyperxmp by default when it is installed. Before, doclicense just suggested to load it and made</td>
</tr>
</tbody>
</table>
use of the package when the
user did. .................... 1

2.2.1
General: Fix compatibility issue
with newer versions of
hyperxmp (bug confirmed with
Tex Live 2020) resulting in an
compile error by loading
hyperxmp and hyperref in the
order the packages expect it. . 1

2.3.0
General: Add option to disable the
use of hyperxmp and add
compatibility for pdfx. Use
https://reuse.software/
for the doclicense source code
itself. ....................... 1

3.0.0
General: Breaking change: Hard
require package options "type",
"modifier" and "version" now
after one year in soft require
migration period. Add
Croatian translation. Add
sections to docs about choosing
a license and the REUSE
specification. Update Spanish
translation to match Creative
Commons website. Add note
to README that CC license
texts and images are licensed
themselves under CC0-1.0.
Load csquotes after hyperref to
avoid hyperref warning. Do not
load the hyperxmp package if
the silence package is loaded to
avoid an endless loop. Improve
warning messages generated by
the package. Add
"Dependency packages and
load order" section to docs. . . 1
